

BIOTRACE BETAINE HCL

\$49.50 inc GST

PRODUCT SUMMARY

BioTrace Betaine HCL provides natural digestive support for people with compromised stomach acid levels. It is a great general digestive aid as it promotes the absorption of all macro nutrients (proteins, carbohydrates, and fats) and micro nutrients (minerals and vitamins especially B12, iron and calcium).

MORE INFORMATION

Many factors can result in low hydrochloric acid (HCL) levels, affecting digestion. These include gastrointestinal disorders, nutritional deficiencies, stress and some pharmaceutical drugs.

Research studies show that supplementing with Betaine HCL may support digestion and absorption in people with low stomach acid. It may also support normal liver function.

Adequate HCL levels are required for lipid metabolism thus Betaine HCL may support normal blood lipid levels, blood pressure and cardiovascular health.

BioTrace's pure extracts in vegetable capsules ensure no nasty excipients (such as tableting agents) are required.

- Helps maintain normal stomach acid levels

- Supports digestion and absorption of nutrients
 - Supports optimal liver function
 - Supports cardiovascular health

2 REVIEWS FOR BIOTRACE BETAINE HCL

Robert Newby – 2023-10-26 06:56:35

5 out of 5

Very happy with recommending the Betaine HCL for a patient that had lost her appetite completely after being on prednisone for acute eosinophilic pneumonia. We detoxed her and she is off the drug and the Betaine HCL has helped restore her appetite naturally. Thank you

Sam Wilkinson – 2023-04-04 21:35:15

5 out of 5

Happy with this product and like how it has no nasty fillers.
