

BIOTRACE ORGANIC HAND SANITISER

\$27.90 inc GST

PRODUCT SUMMARY

BioTrace Organic Hand Sanitiser is made from organic tea tree oil and free from harmful synthetic ingredients such as triclosan, parabens, petrochemicals and artificial fragrances.

MORE INFORMATION

BioTrace Organic Hand Sanitiser is made from organically grown tea trees (*Melaleuca alternifolia*) and extracted through a steam distillation process. Tea tree oil has been used as a traditional medicine by Aborigines for centuries for its germ fighting properties.

Tea tree oil is a natural hand sanitiser and has been shown to kill common bacteria and fungi. Due to the potency of tea tree oil, the amount of alcohol in our hand sanitiser can be reduced down to less than 30% from the standard alcohol content of 60-70% alcohol for common hand sanitisers. This means BioTrace Organic Hand Sanitiser Is suitable for sensitive skin and less likely to dry out hands.

To help moisturise and clean at the same time, calendula oil and lemon oil is added into this unique formulation. A single pump will leave your hands clean and smelling great.

- Cleans and Moisturises Naturally
- Low Alcohol Content

- Kills 99.9% of Common Bacteria & Fungi
 - Deodorises with a Fresh Scent
- No Triclosan, Parabens or Petrochemicals
