BIOTRACE BIO PROBIOTIC

$75.10 inc GST

PRODUCT SUMMARY

BioTrace Bio Probiotic is a multi-strain probiotic formula that provides excellent broad spectrum support.

MORE INFORMATION

It is vital for probiotics to reach the intestines where it can proliferate. Stomach acid destroys many probiotics before they reach the intestines, where optimum absorption occurs.

BioTrace Bio Probiotic's formula contains *Bacillus subtilis,* known as DE111, a unique, stable, spore-forming probiotic strain. What makes DE111 so special is that it is able to withstand the acidic conditions in the stomach and survives passage through the gastrointestinal tract where it then populates and re-sporulates for maximum benefit.

BioTrace Bio Probiotic is formulated to support normal immune function of intestinal cells to help maintain gut barrier function and to help maintain normal microbial flora following antibiotic use or illness.

Additionally, Bio Probiotic is dairy free, contains no animal products and no toxic excipients.

- Multi-strain probiotic formula

- Helps balance the microbiome and support healthy digestive function
- Helps support immune health
- Supports normal bowel movement and gastrointestinal comfort and normal bowel regularity.
- Contains DE111, a stable spore-forming probiotic for intestinal immune support
