PRODUCT SUMMARY

Coral Cal-Mag is pure Sango mineral powder sourced directly from nature.

MORE INFORMATION

Sustainably sourced from fossilised coral heads in the Dominican Republic, Coral Cal-Mag naturally contains ionic trace minerals to assist overall mineral balance in the body. This nutrient-rich calcium formula may support bone health and pH.

This formula contains additional magnesium to support normal calcium absorption and bone mineral density. Vitamins K1, K2-4 and K2-7 are added for their ability to support calcium utilisation and to help maintain normal bone mass. Vitamin C is an antioxidant that may support bone and joint health.

BioTrace Coral Cal-Mag is manufactured in a GMP (Good Manufacturing Practice) certified plant from Sango (coral) calcium and is an excipient free product. The high quality capsule ensures greater protection of encapsulated nutrients.

- Contains calcium, magnesium and Vitamin K to support bone mineral density and pH
 - Contains Vitamin C as an antioxidant to support bone and joint health
- Naturally contains ionic trace minerals to assist in overall mineral balance in the body
