

BIOTRACE ELEMENTAL CHROMIUM

\$30.90 inc GST

PRODUCT SUMMARY

BioTrace Elemental Chromium is a liquid dietary supplement that provides chromium, an essential trace mineral, in ionic form - a form thought to be more readily absorbed by the body.

MORE INFORMATION

Elemental Chromium also contains concentrated mineral drops (CMD), naturally sourced from The Dead Sea in Jordan, providing up to 72 trace elements that may be missing from the diet.

Scientific research shows that Chromium may support healthy insulin and blood sugar levels, thus may be useful for people with sugar cravings or those who need support for blood sugar balance.

Research suggests that Chromium may support healthy brain function in elderly people.

Our BioTrace Liquid Elemental range provides affordable, flexible dosage options of many essential minerals.

- Bio-available, liquid Chromium concentrate with up to 72 naturally occurring trace elements
- Naturally sourced and easily absorbed form

- May support those with sugar cravings
- May support healthy insulin and blood glucose balance
 - May support healthy brain function
 - Economical and flexible dosage form
