

BIOTRACE FISH OIL OMEGA-3 PLUS

\$81.30 inc GST

PRODUCT SUMMARY

BioTrace Fish Oil Omega-3 Plus is a fresh, high-dose liquid fish oil in a light resistant bottle with a deliciously natural orange flavour. The zesty taste makes it suitable for the whole family.

MORE INFORMATION

BioTrace Fish Oil provides a high dose of DHA and EPA in one teaspoon. DHA (docosahexaenoic acid) is most concentrated in the brain, retina and spermatozoa and in combination with EPA (eicosapentaenoic acid) may support healthy brain and eye function.

The DHA/EPA ratio found in BioTrace Fish Oil is ideal for supporting brain and cardiovascular function. It may also support dry skin in adults and children. The addition of the astaxanthin provides antioxidant action which may be beneficial in supporting heart and brain health.

Scientific research shows that a diet rich in Omega-3 fatty acids may support healthy bone mineral density in the elderly. Studies also support the use of fish oil for supporting joint stiffness and mobility.

BioTrace Fish Oil is sustainably sourced from Icelandic herring and is batch tested for purity. There are no artificial preservatives, colours or flavours.

1 REVIEW FOR BIOTRACE FISH OIL OMEGA-3 PLUS

Positive Health - 2025-02-20 18:53:37

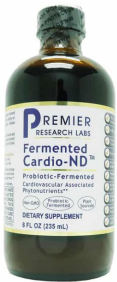

5 out of 5

Omega-3s are healthy fats that may help with a variety of conditions including heart health, brain function, and inflammation. For myself I add omega 3 as a supplement as I often don't eat enough fatty fish, Salmon, mackerel, herring, sardines, lake trout, and tuna are high in omega-3s This has also improved my eyes with inflammation of eye lids
