

BIOTRACE ORGANIC ZINC

\$62.30 inc GST

PRODUCT SUMMARY

BioTrace Organic Zinc is 100% Certified Organic guava leaf extract. Guava leaves have a naturally high zinc content and are used traditionally to support gut, skin, and immune health.

MORE INFORMATION

Zinc is required for over 200 functions in the body including healthy immunity, digestion, skin, and reproductive system support. BioTrace Organic Zinc is uniquely Vegan, Non-GMO and 100% Certified Organic.

The World Health Organisation (WHO) estimates that one-third of the world's population is deficient in zinc. Zinc can easily become depleted in the body which is why it is highly important to support your cells with well tolerated and absorbable forms.

Guava leaves contain co-factors for zinc absorption such as Beta-sitosterol and co-nutrients such as flavonoids and polyphenols. Guava's co-nutrients work synergistically with Organic Zinc to support immune system defence.

BioTrace Organic Zinc is recovered from guava leaves using a water extraction process, and no chemicals. It contains no toxic excipients, is Vegan, Non-GMO and 100% Certified Organic.

- May support immune system defence
 - May support digestive health
 - May support reproductive health
 - May support skin health
- Vegan, Non-GMO & Certified Organic
