

BIOTRACE ELEMENTAL ZINC & COPPER

\$31.30 inc GST

PRODUCT SUMMARY

BioTrace Elemental Zinc & Copper is a liquid dietary supplement that provides zinc and copper, in ionic form - a form thought to be more readily absorbed by the body.

MORE INFORMATION

Elemental Zinc & copper also contains Concentrated Mineral Drops (CMD), naturally sourced from The Dead Sea in Jordan, providing up to 72 trace elements that may be missing from the diet.

Zinc and copper are essential trace minerals that are closely linked and play important roles throughout the body.

Zinc is an essential element that may support normal growth and development, reproduction, immunity, vision, digestion, detoxification, metabolism, and hair, skin and nail health.

Zinc aids the absorption of Vitamin A which may support a healthy immune system, healthy skin and good vision.

Zinc is an important cofactor for adequate stomach acid levels and may also support normal intestinal flora populations.

Zinc is most concentrated in the prostate gland and may support male reproductive organ health.

Copper is an essential element that may support hormone balance and iron absorption in copper deficient individuals.

Use this product only under the guidance of a qualified health practitioner.

Our BioTrace Liquid Elemental range provides affordable, flexible dosage options of many essential minerals.

1 REVIEW FOR BIOTRACE ELEMENTAL ZINC & COPPER

Jason Hatton - 2022-08-28 02:52:54

5 out of 5

Inner calf muscles have been aching for years did a little bit of research and it might be a zinc deficiency have been taking zinc and copper for about a week now and it has ease the pain by an good 30%.
