

## PRL CARDIOVEN

**\$99.50 inc GST**

### PRODUCT SUMMARY

- Provides live-source, fermented CoQ10 in the trans isomer form (50 mg/capsule)
  - Features two nutraceutical blends of botanicals for additional heart support\*
  - Plant-based formula, suitable for vegans and vegetarians

### MORE INFORMATION

CardioVen™ is a targeted nutraceutical formula that promotes premier cardiovascular health.\*

This product features premier quality Coenzyme Q10 (50 mg/cap) which is derived from a natural fermentation process (not synthetic CoQ10). This form of CoQ10 is fat-soluble and is identical to the CoQ10 that is naturally produced by cells in the body. Live-source, “trans” isomer CoQ10 is preferred to synthetic, “cis” isomer CoQ10 in long term use.

CoQ10 is an essential nutrient that is a vital component of cellular energy production.\* CoQ10 is an important part of the mitochondrial electron transport system and supplies cellular energy support to all cells of the body. CoQ10 especially supports the heart muscle and other bodily tissues that have high energy needs.\*

CardioVen™ also features two key nutraceutical blends, Cardio PhytoEssence™ and Cardio Pro Essentials™, which offer a broad range of biocompatible botanical agents with a complex

phytochemical profile for additional nutritional support.\*

This product is often used concurrently with the HCL Support Trio.

**SKU:** 500-234 | **Categories:** [Brand](#), [PRL](#), [Practitioner Range](#) | **Tags:** [Cardiovascular](#)

**PRODUCT DESCRIPTION**
