

PRL MICROBIOME-18

\$98.80 inc GST

PRODUCT SUMMARY

MicroBiome-18™ is a new genre of full spectrum probiotic formulas that offers 18 different strains of beneficial bacteria with a guaranteed 15 billion CFUs per capsule.

MORE INFORMATION

This advanced probiotic support formula is based on the extensive science of the patented bacteria, DE111R *Bacillus subtilis*,* that has demonstrated unmatched probiotic support for the body's intestinal microbiome. By crowding out undesirable bacteria, the gut maintains a healthy flora while also supporting the normal immune reaction of intestinal cells.

Exciting new research has shown *Bacillus subtilis* to be a highly effective, stabilized probiotic organism that survives stomach acid during digestion. It is able to persist in the GI tract by increasing its numbers and then re-sporulating.

*More than 30 studies have been performed to confirm the safety and efficacy of *Bacillus subtilis* DE111. Multiple human clinical studies support DE111's benefits for digestive and immune health. All studies are IRB-approved, double-blind, randomized and placebo controlled.

Indications	Digestion, Immune
Size	30 Caps

Take 1 capsule daily, especially effective between meals

Nutritional supplements should be stored in a cool, dry place, with caps tightly closed, and out of reach from children. Take only as directed.

1 REVIEW FOR PRL MICROBIOME-18

Jason Hatton - 2022-08-28 03:22:33

5 out of 5

I grow my own leafy/microgreens and use microbiome to supercharge my gut and intestinal tract with the good guys.
